DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/8/2007 has been entered.

2. This office action is in response to communication filed on 8/8/07. Claims 1-29 are pending on this application.

3. Applicant's amendment overcomes the following objection/rejection:
 - a. Objection to claim 22
 - b. Rejection of claim 3 under 35 USC 112
 - c. Rejection of claims 1-7, 9-17, and 21-29 under 35 USC 102(b)

4. Applicant's arguments, see Remarks, filed 8/8/07, with respect to claims 1-7, 9-17, and 21-29 have been fully considered and are persuasive. The rejection of claims 1-7, 9-17, and 21-29 have been withdrawn.

Allowable Subject Matter

5. Claims 1-7, 9-17, and 21-29 are allowed.
6. The following is an examiner's statement of reasons for allowance: Lindskog et al (US20060115031) teaches using a diagonally layered multi-antenna transmission utilizing a number of multiple layers, each layer including a different sequence of symbols; dividing the different sequence of symbols of each layer into a first number of multiple sub-sequences, the first number being a multiple of the number of multiple layers; associating the multiple sub-sequences to a second number of transmit antennas such that all antennas transmit an equal number of sub-sequences of each layer; and inserting known symbols between each of the multiple sub-sequences to each transmit antenna, a number of known symbols being at least as many as a number of symbol spaced channel taps minus one seen by a receiver to avoid inter-layer inter-symbol interference.

The allowable subject matter in claims 1, 11, and 23 pertain to the where the multiple sub-sequences in each of the layers include non-identical information content, which reads over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
